Life coaching based on Soul Path Astrology is a means to recognizing your life lessons and the path to the joy you may be missing. Hypnosis is used as an aid in changing behavioral patterns that may be hindering you from going forward in life. Uses essential oils to enhance the hypnosis

process as well as information from the client's astrological chart to help determine if past life issues are causing "blocks" in this lifetime. These "blocks often stop the client from achieving their full potential and living their life to the fullest.

B.E.S.T. is a physical yet non-forceful, energy-balancing procedure used by the hands to reestablish the full healing potential of the body using its natural healing abilities. B.E.S.T. removes the interference and/or distractions that are demanding the attention of the healing power; thereby causing the imbalance in the autonomic nervous system and ultimately leading to disease. The BCS (Bio Cranial System) has been successfully treating patients in Europe for over a decade. The Bio Cranial Systems is a therapeutic protocol that helps the body to correct and heal itself by applying a specific technique directly to the bones of the head (cranium).

Uses Quantum Ground of Being energy to
assist you in evolving into your integrated
self. When you present with an issue,
usually it clears that issue and related issues
on more than one level at a time. Thus
usually the physical, emotional, mental, soul
and spiritual levels are all cleared of the
issue. You need only to relax and allow the
Quantum Masters to interface with you at all
levels.

Jan L Crawford

Infrared Thermal Imaging
129 S. Phelps Ave, #906
Rockford, IL 61108
(815) 378-9975

Non-contact, non-ionizing imaging for use as a screening test for functional (physiological) changes. Ideal for monitoring breast health. Infrared provides information related to "fever" of the breast. Ideal for women of any age. Can be used to monitor the pregnant and nursing women as well as the post-surgical breast. Abnormal heat patterns associated with palpable lumps indicate those at greater risk for the presence of abnormalities. Can aid in evaluation of benign and suspicious growths. Used as adjunctive test for undiagnosed pain problems. Helps to differentiate myofascial issues (tissue and muscle) vs. neurological (nerve) problems. Can be used to scan all regions of the body. FDA approved procedure. Studies conducted and interpreted by qualified practitioners. No physician order needed for procedure. Not reimbursed by most insurance

companies. Reasonable fees. All scans by appointment. Owner: Jan Crawford, RN (Registered Nurse), CTT (Certified Thermology Technician)
